

# WAX RECOMMENDATION

## Washington Biathlon Association Race 6

Stevens Pass Nordic Center, 5 miles east of Stevens Pass, WA

Sunday, February 25

10:30 A.M. Zero, 11:30 A.M. Race

10K Men, 7.5K Women

Pursuit

See website for details

<http://www.wabiathlon.org>

Forecast/Conditions: Overnight low of 20 with continuing snowfall predicted for Sunday at about 85 percent chance. High of around 30 at race time.

Glidewax: Apply LF Black, scrape and brush, then apply HF Red, scrape and brush. Finish by crayoning JetStream Red, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: NA

Structure: A fine linier structure covered by one pass with the Red Structurite tool (before JetStream application) will best suit these conditions.

**Racing - Service**

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](http://TokoUS.com).
