10:30 A.M. Zeroing, 11:30 A.M. Race

7.5K Women, 10K Men

Sprint format

See website for details

<http://www.wabiathlon.org>

Forecast/Conditions: Saturday night low of 38. Race time temperature of 40 Sunday with a 95 percent chance of rain. Expect a soft and wet snowpack.

Glidewax: Apply LF Black, scrape and brush, then apply HF Yellow, scrape and brush. Finish by crayoning JetStream Yellow, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: NA

Structure: A Universal or warm structure covered by one pass with the Yellow Structurite tool followed by HelX 2.0 Yellow will best suit these wet conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
