

WAX RECOMMENDATION

Beaver Dam Classic

Vasaloppet Ski Trails, Mora, MN

Sunday, February 18

1 P.M.

20K/10K/5K, Classic

<http://www.moraskiclub.org/beaver-dam-race>

Forecast/Conditions: Saturday night's low is expected around 8F with partly cloudy skies. Race time temperature expected in the mid-20s with mostly cloudy skies and a chance of snow.

Glidewax: Apply LF Black, scrape and brush, then apply HF Red, scrape and brush. Finish by crayoning JetStream Red, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply a couple layers of Nordic GripWax Red, corking between layers. Then apply a cushion layer of Nordic GripWax Yellow, cork smooth. Finish with a final layer of Nordic GripWax Red, cork smooth.

Structure: A universal grind covered by one pass with the Red Structurite tool before JetStream application will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
