

# WAX RECOMMENDATION

## Charlie Banks MN HS Relays

Giants Ridge, Biwabik, MN

Wednesday, February 14

1 P.M. Girls Relay

2 P.M. Boys Relay

4 x 3K Relays (2 legs Classic, 2 legs Freestyle)

[www.skinnyski.com/racing/highschool/2018/CharlieBanksInfo.pdf](http://www.skinnyski.com/racing/highschool/2018/CharlieBanksInfo.pdf)

**Forecast/Conditions:** Overnight low of 12, climbing to the mid-30s by race time. Lots of wind on Monday and Tuesday. The snow should be transformed, well-groomed, will start out solid but soften with the mostly sunny skies and heavy skier traffic. Wind from the SW with gusts to 15 mph during the relays. Wax truce applies.

**Glidewax:** Apply a 1:1 mix of NF Red/NF Yellow, scrape and brush.

**Gripwax:** Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply additional layers of Nordic GripWax Yellow, corking between layers.

**Structure:** A universal structure covered by one pass with the Red Structurite tool after one applies glidewax will best suit these conditions.

Created by Gerald Slater, Toko Tech Team member since 2006. Jerry@TokoUS.com

Check the [Wax Tips](http://TokoUS.com) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](http://TokoUS.com).
