WAX RECOMMENDATION

Minnesota Finlandia

Buena Vista Ski Trail, Bemidji, MN
Saturday, February 17
10 A.M. 25K Classic and 25K Pursuit
10:10 A.M. 50K Freestyle and 25K Bemidjithon
http://www.minnesotafinlandia.com/Race%20Info.htm

Forecast/Conditions: Friday night's low is expected around 8F with mostly cloudy skies, windy, and a slight chance of snow. Race time temperature around 15 with partly sunny skies expected.

Glidewax: Apply LF Blue, scrape and brush, then apply HF Blue, scrape and brush. Finish by crayoning JetStream Blue, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply several layers of Nordic GripWax Blue, corking between layers.

Structure: A universal grind covered by one pass with the Blue Structurite tool before JetStream application will best suit these conditions.

Racing - Service

Check the Wax Tips page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
