

WAX RECOMMENDATION

Black Diamond Wasatch Citizen Series Race #4

Soldier Hollow, Midway, UT

Saturday, February 10

10 A.M.

10K Skate

4 x 2.5K loop

More info [here](#)

Forecast/Conditions: Overnight low of 28. Temperature at start about 34 and partly cloudy. The course is entirely on manmade snow. Expect firm and fast conditions with some mildly dirty snow. The organizers request that skiers try to clean their boots before walking onto the track to minimize the dirt brought onto the snow.

Glidewax: Apply LF Black, scrape and brush, then apply HF Red, scrape and brush. Finish by crayoning JetStream Red, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Structure: A universal structure covered by one pass with the Red Structurite tool followed by one pass with the Blue Structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the [Wax Tips](#) page at [TokoUS.com](#) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](#).
