

WAX RECOMMENDATION

Glenville Hills Classic

Scotia, NY

Saturday, February 10

10 A.M.

6K all Women and U16 Boys, 10K U18 Boys and Men

Mass start

<https://www.skireg.com/glenville-hills-classic0>

Forecast/Conditions: Overnight low 27, temperature at start 36, packed powder, machine groomed snow. Cloudy skies.

Glidewax: Apply LF Black, scrape and brush, then apply HF Yellow scrape and brush. Finish by crayoning JetStream Yellow, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 3 layers of Nordic GripWax Yellow, corking between layers.

Structure: A wet grind covered by one pass with the Yellow Structurite tool (before JetStream application) will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
