

# WAX RECOMMENDATION

## Meijer State Games of Michigan Freestyle

Forbush Corner, Frederic, MI

Saturday, February 17

10 A.M. Wave starts. See web site for times.

17K/8K, Skate

1 lap for each race

<https://www.forbushcorner.com>

**Forecast/Conditions:** Overnight low of 7F with temperature at start of 18. Expect 1-2 inches of new snow in the previous 24 hours. Conditions should machine groomed, hard packed transformed snow.

**Glidewax:** Apply LF Blue, scrape and brush, then apply HF Blue, scrape and brush. Finish by crayoning JetStream Blue, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

**Gripwax:** NA

**Structure:** A fine linear grind covered by one pass with the Blue Structurite tool before JetStream application will best suit these conditions.

**Racing - Service**

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](http://TokoUS.com).
