## National Guard Biathlon Championships Sprint

Soldier Hollow, Midway, UT

Sunday, February 25

9 A.M. Zero, 10 A.M. Race

10K Sprint and shorter distances

30 second Interval starts

<http://utahbiathlon.com/CNGB18.html>

Forecast/Conditions: Overnight low of 15F. Temperature at start in the high 20s and partly cloudy with chance of snow. The course will be mixture of natural and manmade snow.

Glidewax: Apply LF Black, scrape and brush, then apply HF Red/HF Blue mixed 1:1, scrape and brush. Finish by crayoning JetStream Red, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Structure: A universal structure covered by one pass with the Blue Structurite tool (before JetStream application) will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](http://TokoUS.com).
