

WAX RECOMMENDATION

Meijer State Games of Michigan Classic

Hanson Hills, Grayling, MI

Sunday, February 18

10 A.M

12K, Classic

15 second Interval start, 1 lap

<http://nordicskiracer.com>

Forecast/Conditions: Overnight low of 17 with temperature at start of 21. Expect partly sunny skies with a 50 percent chance of snow before the race. Conditions should be hard transformed snow possibly mixed with new snow.

Glidewax: Apply LF Black, scrape and brush, then apply HF Blue/HF Red mixed 1/1, scrape and brush. Finish by crayoning JetStream Red, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 4 layers of Nordic GripWax Red, corking between layers. For a little more speed, finish with a thin layer of Nordic GripWax Blue, lightly cork smooth.

Structure: A universal grind covered by one pass with the Red Structurite tool before JetStream application will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
