

# WAX RECOMMENDATION

## SMR Stampede Classic

Snow Mountain Ranch, Granby, CO

Sunday, March 11

9 A.M.

50K, 25K, 10K, Classic

Mass start by distance

25K lap

<https://snowmountainranch.org/event/stampede-race/>

**Forecast/Conditions:** Overnight low of 14, 29 at race start warming to mid-40s by noon under partly cloudy skies. The windy conditions are keeping the snow dryer than expected for the temperature.

**Glidewax:** Apply LF Black, scrape and brush, then apply HF Red, scrape and brush. Finish by crayoning JetStream Red, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

**Gripwax:** Roughen base with 150 grit sandpaper, iron in Nordic Base Klister Green, smooth, let cool. Then apply 3 layers of Nordic GripWax Yellow, corking between layers. Cover with GripWax Red.

**Structure:** A universal structure covered by one pass with the Yellow Structurite tool (before JetStream application) will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](http://TokoUS.com).
