

WAX RECOMMENDATION

Sierra Skogsloppet

Tahoe Donner XC, Truckee, CA

Sunday, March 25

9 A.M.

15K and 5K, Freestyle

Mass start

1 loop 15K, 1 lap for 5K

<http://www.tahoedonner.com>

Forecast/Conditions: Overnight low 20, temperature at start 24, high of 32. Fresh snow on Saturday and a 50 percent chance of snow on Sunday. Light winds. New snow and soft tracks will keep the snow skiing colder than air temperature dictates.

Glidewax: Apply LF Black, scrape and brush, then apply HF Red, scrape and brush. Finish by crayoning JetStream Red, iron hot (320F), with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: N/A

Structure: A new snow grind covered by one pass with the Red Structurite tool (before JetStream application) will best suit these conditions.

Created by name Ben Grasseschi, Toko Tech Team member since 2004.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
