

WAX RECOMMENDATION

Solitude Nordic Center's Annual Spring Fling

Solitude Nordic Center, Brighton, UT

Saturday, March 17

10 A.M. 7K Freestyle

1 P.M. 3 person Relay race

www.utahnordic.com/events/2018/solitude-nordic-spring-fling-0

Forecast/Conditions: Overnight low of 24. Temperature at the start in the low 30s. Several inches of new snow are expected in the days prior to the race and snow is possible during the race. Expect fresh untransformed snow and the track may be soft.

Glidewax: Apply LF Black, scrape and brush, then apply HF Red, scrape and brush. Finish by crayoning JetStream Red, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Structure: A universal stone grind structure covered by one pass with the Blue Structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
