

WAX RECOMMENDATION

California Gold Rush Festival

Royal Gorge XC, Soda Springs, CA

Saturday, March 17

10 A.M.

10K and 5K Classic

Mass start

Multiple laps

<http://www.royalgorge.com>

Forecast/Conditions: Overnight low 15, temperature at start 22, high temperature 29. New snow all week = packed powder. Mostly cloudy with light winds. Snow showers likely.

Glidewax: Apply LF Black, scrape and brush, then apply HF Red/HF Blue mixed 1:1, scrape and brush. Finish by crayoning JetStream Red iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth and let cool. Then apply 3-5 layers of Nordic GripWax Red, corking between layers.

Structure: A universal structure covered by one pass with the Blue Structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
