1-2 laps of 5K course

http://michigantechrecreation.com/trails/Ski_Races/index

Forecast/Conditions: Friday night mostly clear with a low around 28. West wind 5 to 10 mph. Saturday sunny, with race temperature 28-33. Expect machine worked and packed surface with glazed tracks.

Glidewax: Apply LF Black, scrape and brush, then apply HF Yellow, scrape and brush.

Gripwax: Roughen base with 150 grit sandpaper, iron in together Nordic Base Wax Green and 3-4 small drops of Base Klister Green, cork smooth, let cool. Then apply 3-4 layers of Nordic GripWax Yellow, corking between layers.

Structure: A Universal grind covered by one pass with the Yellow Structurite tool before JetStream application will best suit these conditions.

Racing - Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
