

WAX RECOMMENDATION

Sprint Biathlon

Snow Mountain Ranch, Granby, CO

Sunday, December 9

10:30 A.M. Start

Wave starts/Loop

<http://www.coloradobiathlon.org/schedule.html>

Forecast/Conditions: Overnight low of 5F or colder with wind chill. Air temperature warming to lower teens at start. Partly clouding skies with winds 5-7 MPH. The track is in very good early season condition.

Glidewax: Apply LF Blue, scrape and brush, then apply HF Blue, sprinkle on X-cold Powder, iron in together, scrape and brush. Finish by crayoning JetStream Blue, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: N/A

Structure: A fine structure will best suit these conditions.

Racing - Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
