

WAX RECOMMENDATION

New Year's Relay

Steamboat Touring Center, Steamboat Springs, CO

Saturday, December 29

10 A.M.

3 skier teams - 1 Classic, 2 Skate

3 x 7.2K loop

More info [here](#)

Forecast/Conditions: Overnight low of -6F warming to 7F air temperature at race start. The snow will be cold, dry and slow.

Glidewax: Apply LF Blue, scrape and brush, then apply HF Blue, sprinkle on X-cold Powder, iron in together, scrape and brush. Finish by crayoning JetStream Blue, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 2 thin layers of Nordic GripWax X-Cold, corking between layers.

Structure: A fine structure will best suit these cold track conditions.

Racing - Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
