

# WAX RECOMMENDATION

## Skyway Shuffle

Skyway Trailhead, Grand Mesa, CO

Saturday, December 29

11 A.M.

10K Skate

Mass start

<http://gmnc.org/skyway-skuffle-10k-race-dec-29th/>

**Forecast/Conditions:** It is going to be cold with an overnight low of -2F, -15F wind chill. A 40 percent chance of snow overnight. 10F air temperature at start. Expect a soft track.

**Glidewax:** Apply LF Blue, scrape and brush, then apply HF Blue, sprinkle on X-cold Powder, iron in together, scrape and brush. Finish by crayoning JetStream Blue, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

**Gripwax:** N/A

**Structure:** A fine structure will best suit these conditions

**Racing - Service**

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](http://TokoUS.com).
