

# WAX RECOMMENDATION

## Billy Goat Loppet

Sun Valley Nordic Center, Sun Valley, ID

Saturday, January 19

10:30 A.M.

10K or 5K Skate

Info: Jenny Busden (208) 720-2540

**Forecast/Conditions:** Overnight, partly cloudy with a low of 14. Temperature at race in the low 20s. Partly cloudy with 30 percent chance of snow. New fresh snow conditions.

**Glidewax:** Apply LF Black, scrape and brush, then apply HF Blue/HF Red mixed 1/1, scrape and brush. Finish by crayoning JetStream Red, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

**Gripwax:** N/A

**Structure:** A universal structure covered by one pass with the Red Structurite tool (before JetStream application) will best suit these conditions.

Created by EJ Harpham & Muffy Ritz, Toko Tech Team members since 2005.

Check the [Wax Tips](#) page at [TokoUS.com](#) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](#).
