Sunday, January 6

9:30 A.M. to 12:30 P.M. Start Times

Interval starts, 5K Classic for Varsity & JV,

3.3K Classic for MS

Race link [here](#)

Forecast/Conditions: The race course will be closed to preserve the trail until the Saturday race. Highs on Thursday, Friday, and Saturday will be around or above freezing with partly sunny skies. Saturday night's low is expected around 22, with temperatures during the races in the low 30s with partly cloudy skies.

Glidewax: Apply NF Black, scrape and brush, then apply NF Red/Yellow mixed 1/1, scrape and brush.

Gripwax: Roughen base with 150 grit sandpaper, heat in Nordic Base Klister Green, smooth, let cool. For early starters, then apply 1 layer of Nordic Klister Red, let cool. For later starters, apply 1 layer of Nordic Klister Yellow after the Green Klister.

Structure: A universal structure covered by one pass with the Red Structurite tool will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
