

WAX RECOMMENDATION

SMR Classic

Snow Mountain Ranch, Granby, CO

Saturday, January 5

10 A.M.

15K/7.5K Classic

Mass start by distance on a 7.5K loop

Race details [here](#)

Forecast/Conditions: Overnight low of 1F, air temperature warming to upper teens by start. Sunny skies with light winds. Expect firm tracks with cold, dry snow.

Glidewax: Apply LF Blue, scrape and brush, then apply HF Blue, scrape and brush. Finish by crayoning JetStream Blue, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 2-3 thin layers of Nordic GripWax Blue, corking between layers. Cover with a thin layer of Nordic GripWax X-Cold, lightly cork.

Structure: A fine linear structure will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
