

WAX RECOMMENDATION

Stagecoach Classic

Devil's Thumb Ranch, Tabernash, CO

Saturday, January 26

7 A.M. shuttles start, 9 A.M. first race wave

30K/15K, Classic

Mass start by distance

Point to point

<https://www.devilsthumbbranch.com/event/stagecoach-classic/>

Forecast/Conditions: Snow and wind Thursday and Friday evening. Friday night low of 7F, air temperature warming to the mid-teens for the 9 A.M. start and low 20s for the 10:30 A.M. start. DTR is typically 10 degrees colder than forecasted. Expect cold/dry soft conditions.

Glidewax: Apply LF Blue, scrape and brush, then apply HF Blue, scrape and brush. Finish by crayoning JetStream Blue, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 3-4 thin layers of Nordic GripWax Blue, corking between layers. Cover with a thin layer of GripWax X-Cold if the snow temperature remains in the single digits.

Structure: Fine linear structure will best suite these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](#) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](#).
