

# WAX RECOMMENDATION

## Wasatch Citizen Series Race #2

White Pine Touring Center, Park City, UT

Saturday, January 5

10 A.M., 15K Skate

Age group wave start

3 laps of the 5K loop

Event details [here](#)

**Forecast/Conditions:** Overnight low of 12, temperature at start about 25. Cold, dry, old snow warming throughout day, mostly sunny with a high near 40.

**Glidewax:** Apply LF Black, scrape and brush, then apply HF Blue/HF Red mixed 1/1, scrape and brush. Finish by crayoning JetStream Red, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad. Juniors' wax restrictions: For U14, apply NF Blue/NF Red mixed 1/1, scrape and brush. Older Juniors can use HF Blue/HF Red mixed 1/1, but no topcoats.

**Structure:** A universal grind covered by one pass with the Blue Structurite tool before JetStream application will best suit these conditions

**Racing - Service**

Check the [Wax Tips](#) page at [TokoUS.com](#) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](#).
