

# WAX RECOMMENDATION

## Michigan HS Championships Pursuit - Classic

Al Quaal Recreation Area, Ishpeming, MI

Saturday, February 16

9 A.M. Girls, 10 A.M. Boys, 5K, Pursuit start

Single lap course

<http://www.superiorlandskiclub.com>

**Forecast/Conditions:** Friday night a 40 percent chance of snow showers, mainly before 2 A.M. Mostly cloudy, with a low around 3F. Saturday mostly sunny, with a race temperature of 5F-10F. Expect machine worked and packed powder solid tracks.

**Glidewax:** Apply LF Black, scrape and brush, then apply HF Blue, scrape and brush. Event regulations prohibit the use of pure fluoro top coats.

**Gripwax:** Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 1-2 short layers of Nordic GripWax Blue, corking between layers. Cover with 2 full layers of Nordic GripWax X-Cold, corking between layers.

**Structure:** A fine linear grind covered by one pass with the Blue Structurite tool before JetStream application will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](http://TokoUS.com).
