

# WAX RECOMMENDATION

## Tour of Anchorage

Kincaid Park finish, Anchorage, AK

Sunday, March 3

9:30 A.M. 50K Freestyle, 10:30 A.M. 40K Freestyle, Service HS

11 A.M. 25K Classic, Noon 25K Freestyle, APU

Wave start by category

Point-to-point race, finishing at Kincaid Park

<https://www.anchoragenordicski.com/tour-of-anchorage/>

Forecast/Conditions: Overnight low 18, first wave starting at 20, last wave starting at 27 with the temperature rising to 31 during the race. Transformed snow, partly cloudy skies, 3 MPH winds. The course will be in fairly good condition with firm trails. There is potential for dirty snow in tunnels, road crossings and along the coast.

Glidewax: Apply LF Black, scrape and brush, then apply HF Red, scrape and brush. Finish by crayoning JetStream Red, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 3 layers of Nordic GripWax Red, corking between layers.

Structure: A universal structure covered by one pass with the Red Structurite tool (before JetStream application) will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](http://TokoUS.com).
