## Book Across The Bay

Washburn, WI

Saturday, February 16

6 P.M.

10K, Skate and Classic

Mass start, Point-to-Point race

<http://batb.org>

Forecast/Conditions: Overnight low zero F, temperature at start will be 15. Expect clear skies with a great sunset!

Glidewax: Apply LF Black, scrape and brush, then apply HF Blue, scrape and brush. Finish by crayoning JetStream Blue, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 3-4 layers of Nordic GripWax Blue and finish with one layer of Nordic GripWax Red, corking between layers.

Structure: A fine linear grind covered by one pass with the Blue Structurite tool (before JetStream application) will best suit these conditions.

# Racing - Service

Created by Blaise Sopiwnik, Toko Tech Team member since 2014.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](http://TokoUS.com).
