

WAX RECOMMENDATION

Lake Catamount Marathon

Catamount Ranch, Steamboat Springs, CO

Sunday, February 24

10 A.M.

2K - 28K distances, Skate or Classic

Mass start

Loops by distance

[More Info Here](#)

Forecast/Conditions: Overnight low 6F, warming to upper teens by start under partly sunny skies with some wind.

Glidewax: Apply LF Black, scrape and brush, then apply HF Blue, scrape and brush. Finish by crayoning JetStream Blue, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply Nordic GripWax Red and then GripWax Blue, corking between layers, and repeat. Red/Blue, Red/Blue.

Structure: A fine structure covered by one pass with the Blue Structurite tool (before JetStream application) will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
