

WAX RECOMMENDATION

Meijer State Games - Classic

Hanson Hills, Grayling, MI

Sunday, February 17

10 A.M.

14K Classic

15 second interval starts

<http://nordicskiracer.com>

Forecast/Conditions: Overnight low of 4F, temperature at start of 14, packed powder. Mostly cloudy skies with a 10 percent chance of light snow.

Glidewax: Apply LF Blue, scrape and brush, then apply HF Blue, scrape and brush. Finish by crayoning JetStream Blue, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 6 thin layers of Nordic GripWax Blue, corking between layers. For more glide and less kick, cover with 1 layer of Nordic GripWax X-Cold.

Structure: A fine linear structure covered by one pass with the Blue Structurite tool after brushing out the glide wax will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
