## NH Coaches Series Race 2

Whitaker Woods Nordic Trails, North Conway, NH

Saturday, February 9

10:30 A.M., 5K Classic

Waves of 5 every 30 seconds

5K, 1 loop

<http://www.nhnordiccoaches.org/nh-series/>

**Forecast/Conditions:** Friday overnight cloudy, low about 14. Saturday sunny. The snow temperature at race time will be about 19 on the trails. PistenBully groomed granular snow.

**Glidewax:** Apply LF Black, scrape and brush, then apply HF Blue/HF Red mixed 1/1, scrape and brush. Finish by crayoning JetStream Red, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

**Gripwax:** Roughen base with 150 grit sandpaper, heat in a thin layer of Nordic Base Klister Green, let cool. Warm ski until klister is tacky and apply a thin layer of Nordic Klister Blue and smooth. Later starts may mix Klister Red and Klister Blue as needed.

**Structure:** A universal structure covered by one pass with the Red Structurite tool (before JetStream application) will best suit these conditions.

Created by Stuart Kremzner, Toko Tech Team member since 2005.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](http://TokoUS.com).
