

# WAX RECOMMENDATION

## Ski, Shoe, and Fatbike to the Clouds

Great Glen Nordic Center, Gorham, NH

Sunday, March 3

10 A.M.

10K Point-to-point

Mass start, Skate/Classic technique

Race link [here](#)

**Forecast/Conditions:** Saturday overnight cloudy, low about 21. Sunday mostly cloudy, a 60 percent chance of snow. The snow temperature at race time will be about 25 on the trails. PistenBully groomed, packed powder.

**Glidewax:** Apply LF Black, scrape and brush, then apply HF Red, scrape and brush. Finish by crayoning JetStream Red, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad

**Gripwax:** Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 3 layers of Nordic GripWax Red, corking between layers.

**Structure:** A Universal structure covered by one pass with the Red Structurite tool (before JetStream application) will best suit these conditions.

Created by Stuart Kremzner, Toko Tech Team member since 2005.

Check the [Wax Tips](#) page at [TokoUS.com](#) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](#).
