Baker Park, Maple Plain, MN

Saturday, February 16

9:30 A.M. 10K Skate, Men and Women combined

9:45 A.M. tour

Mass start

<http://www.skinnyski.com/racing/forms/2019/ingalami.pdf>

**Forecast/Conditions:** Overnight low of -1F rising to 7F for the start. Winds from east at 3 mph on this partly sunny day. The course will be natural snow, packed and a little on the soft side.

**Glidewax:** Apply LF Blue, scrape and brush, then apply HF Blue, scrape and brush. Finish by crayoning JetStream Blue, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

**Structure:** A fine/cold structure or creating one with a single pass of the Blue Structurite tool (before JetStream application) will best suit these conditions.

**Racing - Service**

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](http://TokoUS.com).
