## Tour of Bogus

Bogus Basin, Boise, ID

Sunday, February 24

10 A.M.

25K/10K/5K, Skate

Mass start

<https://www.bbnt.ski>

**Forecast/Conditions:** New snow throughout week. Expect a soft track. Overnight low of 17, 21 at start with a high of 23. Sky will have 90 percent cloud cover and there is a 70 percent chance of snow during the race.

**Glidewax:** Apply LF Black, scrape and brush, then apply a 1:1 mixture of HF Blue/HF Red, scrape and brush. Finish by crayoning JetStream Red, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

**Structure:** A fine grind covered by one pass with the Blue Structurite tool before JetStream application will best suit these conditions. A soft flex ski may work well in these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](http://TokoUS.com).
