

WAX RECOMMENDATION

TOKO[®]

Turtle River Pursuit

WinMan Ski Trails, Manitowish Waters, WI

Sunday, February 10

9 A.M., 11K Skate

Seeded start

<https://www.turtleriverpursuit.com/>

Forecast/Conditions: Overnight low of -8F on Sunday, temperature at start will be 1F. Expect partly cloudy conditions with lots of fresh snow.

Glidewax: Apply LF Blue, scrape and brush, then apply HF Blue, sprinkle on X-cold Powder, iron in together, scrape and brush. Finish by crayoning JetStream Blue, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Structure: A fine linear grind covered by one pass with the Blue Structurite tool before JetStream application will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to www.TokoVideos.com.
