

# WAX RECOMMENDATION

## Gold Rush Festival - Classic

Royal Gorge XC, Soda Springs, CA

Saturday, March 23

10 A.M.

5K and 10K, Classic only

Interval start

1-2 laps

<http://royalgorge.com>

**Forecast/Conditions:** Overnight low of 27, temperature at start 33, high of 37. New snow expected all week and snow likely during the race. Breezy.

**Glidewax:** Apply LF Black, scrape and brush, then apply HF Red scrape and brush. Finish by crayoning JetStream Red, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

**Gripwax:** Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 3-5 layers of Nordic GripWax Red and GripWax Yellow alternating, corking between layers.

**Structure:** A universal structure covered by one pass with the Red Structurite tool (before JetStream application) will best suit these conditions.

**Racing - Service**

Created by Ben Grasseschi, Toko Tech Team member since 2001.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](http://TokoUS.com).
