

WAX RECOMMENDATION

Sierra Skogsloppet

Tahoe Donner Cross Country Ski Area, Truckee, CA

Sunday, March 17

9 A.M.

10K or 15K depending on conditions (Freestyle)

Wave starts

www.tahoedonner.com/events/sierra-skogsloppet-xc-race/

Forecast/Conditions: Overnight low of 25. Temperature at start 32. Mostly sunny, with light, variable winds SSW 9 mph on race day.

Glidewax: Apply LF Blue, scrape and brush, then apply a 2:1 ratio of HF Red/HF Blue, scrape and brush. Finish by crayoning JetStream Red, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: N/A

Structure: A universal structure covered by one pass with the Red Structurite tool (before JetStream application) will best suit these conditions.

Created by Ben Grasseschi, Toko Tech Team member since 2001.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
