

WAX RECOMMENDATION

Hoigaard's/Breadsmith Slush Rush

Hyland Park Reserve, Bloomington, MN

Saturday, March 9

9 A.M. Masters 10K Freestyle

9:05 A.M. Juniors 5K Freestyle

Mass starts, 5K loop

<http://www.skinnyski.com/racing/forms/2019/slushrush.pdf>

Forecast/Conditions: Overnight low of 25 rising to 28 at the start. Mostly cloudy, 15 mph wind from the east. A 25 percent chance of snow from 6 A.M. rising to 76 percent at 9 A.M. Expect a solid racing platform covered with fresh snow.

Glidewax: Apply LF Black, scrape and brush, then apply HF Red, scrape and brush. Finish by crayoning JetStream Red, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Structure: A universal structure covered by one pass with the Red Structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
