

WAX RECOMMENDATION

NENSA U16 Eastern Championships

Pine Hill Trails, Bethel, ME

Friday, March 8

3 P.M.

5K, Freestyle technique

Wave start, 1 loop

<https://www.nensa.net/u16-championships/>

Forecast/Conditions: Thursday overnight mostly clear, low about zero F. Friday sunny. The snow temperature at race time will be about 25 on the trails. PistenBully groomed packed powder.

Glidewax: This is an LF/HF only race. No pure-fluoro top-coats permitted. Apply LF Black, scrape and brush, then apply HF Red, scrape and brush.

Gripwax: N/A

Structure: A universal structure covered by one pass with the Red Structurite tool will best suit these conditions.

Racing - Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at TokoUS.com.
