Sunday, April 7

9 A.M.

42K, 21K, 10K, 5K, Freestyle

Mass start

Multiple loops

<http://tamaracklodge.com>

**Forecast/Conditions:** Overnight low 28, temperature at start 36, high of 50. New snow Friday into Saturday leading up to the race, with partly cloudy skies and light breeze on race day.

**Glidewax:** Apply LF Black, scrape and brush, then apply HF Red/HF Yellow mixed 1:1, scrape and brush. Finish by crayoning JetStream Red, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (60 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

**Gripwax:** N/A

**Structure:** A universal structure covered by one pass with the Yellow Structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Created by Ben Grasseschi, Toko Tech Team member since 2001.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream or HelX) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the How To link at [TokoUS.com](http://TokoUS.com).
