

WAX RECOMMENDATION **TOKO**[®]

North Creek Nordic Festival

Gore Mtn Ski Bowl, North Creek, NY

Saturday, December 7

9 A.M.

Junior racers 5K, all others 10K, Classical technique

<https://www.skireg.com/ncnfsat>

Forecast/Conditions: Overnight low 12, temperature at start 18, transformed and manmade snow, machined groom surface with 1-2" of new snow from Friday mixed in.

Glidewax: Apply Performance Black Hot Wax, scrape and brush, then apply HP Blue/HP Red Hot Wax mixed 1:1, scrape and brush. For HP Liquid Paraffin, apply Performance Blue Hot Wax, scrape and brush, then spray on HP Liquid Blue, wait 30 minutes, then polish with the Polishing Brush Liquid Paraffin.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 3 layers of Nordic GripWax Blue, corking between layers.

Structure: A universal structure covered by one pass with the Blue Structurite tool after scraping and brushing HP Hot Wax or before spraying HP Liquid will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
