

WAX RECOMMENDATION **TOKO**[®]

Winterstart

Bear Basin, McCall, ID

Saturday, December 21

11 A.M.

5K/3K/1K, Skate

Mass start

<http://mccallwintersportsclub.org/>

Forecast/Conditions: New snow Wednesday followed by warming temperatures. Friday night low of 32, 37 at start. Expect clean snow which may become transformed if rains falls. A 20 percent chance of precipitation on race day with 75 percent humidity.

Glidewax: Apply Performance Black Hot Wax, scrape and brush, then apply High Performance Red Hot Wax, scrape and brush. For HP Liquid Paraffin, apply Performance Blue Hot Wax, scrape and brush, then spray on HP Liquid Red, let sit for 30 minutes, polish with the Polishing Brush Liquid Paraffin. Juniors: Apply Base Performance Red Hot Wax, scrape and brush.

Structure: A universal structure covered by one pass with the Red Structurite tool after scraping and brushing HP Hot Wax or before spraying HP Liquid will best suit these conditions. If snow is considerably moist consider an additional pass with the Yellow Structurite tool.

Racing - Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
