1.5K lap

[www.hoigaards.com/articles/hoigaards-breadsmith-relays-pg141.htm](http://www.hoigaards.com/articles/hoigaards-breadsmith-relays-pg141.htm)

**Forecast/Conditions:** Temperature will drop throughout Friday night, from low-20s to 12 at the start. Wind will be from the NW dropping wind chill to zero. Mostly cloudy. An 80 percent chance of a few inches of new snow between Thursday morning and the start, with a 40 percent chance of snow Friday evening. Expect the course to have a solid base but be a little soft on top.

**Glidewax:** Apply Performance Blue Hot Wax, scrape and brush, then apply High Performance Blue Hot Wax, scrape and brush. For HP Liquid Paraffin, apply Performance Blue Hot Wax, scrape and brush, then spray on HP Liquid Blue, let sit for 30 minutes, polish with the Polishing Brush Liquid Paraffin.

**Structure:** A universal structure covered by one pass with the Blue Structurite tool after scraping and brushing HP Hot Wax or before spraying HP Liquid will best suit these conditions.

**Racing - Service**

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
