

WAX RECOMMENDATION

Skinny Santa Solstice Ski

Woodland Trails, Elk River, MN

Saturday, December 21

9 A.M.

20K/10K, freestyle

10K lap

Mass start

<https://runsignup.com/skinneysanta>

Forecast/Conditions: Friday overnight low of 18, rising to 25 at the start. Transformed dry snow packed into a solid racing platform. Lots of leaves. Slight wind, mostly sunny. Little chance of snow between now and Saturday.

Glidewax: Apply Performance Black Hot Wax, scrape and brush, then apply High Performance Red Hot Wax, scrape and brush. For HP Liquid Paraffin, apply Performance Blue Hot Wax, scrape and brush, then spray on HP Liquid Red, let sit for 30 minutes, polish with the Polishing Brush for Liquid Paraffin.

Structure: A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing HP Hot Wax or before spraying HP Liquid will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
