

WAX RECOMMENDATION **TOKO**[®]

Polar Bear New Years Resolution Race

McCauley Mtn, Old Forge, NY

Sunday, December 29

Noon

5K all U16 Boys, Girls and all Women; 10K all Men

Freestyle technique

Mass Start

<https://www.skireg.com/polar-bear-new-years-resolution>

Forecast/Conditions: Overnight low 25, temperature at start 39, firm and transformed with dirt/pine needles mixed in. Cloudy skies with a 40 percent chance of rain in the afternoon.

Glidewax: Apply Performance Black Hot Wax, scrape and brush, then apply HP Yellow Hot Wax, scrape and brush. For HP Liquid Paraffin, apply Performance Yellow Hot Wax, scrape and brush, then spray on HP Liquid Yellow, let sit in a warm room for at least one hour (overnight is best), then polish with the Polishing Brush Liquid Paraffin.

Structure: A wet structure covered by two passes with the Yellow Structurite tool after scraping and brushing HP Hot Wax or before spraying HP Liquid will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
