

# WAX RECOMMENDATION

## Winter Warmup

Elm Creek Park, Maple Grove, MN

Saturday, December 28

8:30 A.M.

10K/5K, Skate, Mass start

Course to be determined, either 5 or 2.5K laps.

More event info [here](#)

**Forecast/Conditions:** Overnight low of 24 with a 40 percent chance of snow after midnight and a 70 percent chance beginning at 6 A.M. Temperature at start in the high 20s. Mostly cloudy with a slight wind from the SE. Expect new snow covering a soft but dirty base.

**Glidewax:** Apply Performance Black Hot Wax, scrape and brush, then apply High Performance Yellow Hot Wax, scrape and brush. For HP Liquid Paraffin, apply Performance Red Hot Wax, scrape and brush, then spray on HP Liquid Yellow, let sit in a warm room for at least one hour (overnight is best), then polish with the Polishing Brush Liquid Paraffin.

**Structure:** A universal structure covered by one pass with the Red Structurite tool after scraping and brushing HP Hot Wax or before spraying HP Liquid will best suit these conditions.

**Racing - Service**

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
