

WAX RECOMMENDATION **TOKO**[®]

Winterstart

Lake Creek, Ketchum, ID

Sunday, December 8

10 A.M.

9K, 6K, 3K, 1K, Skate

4 person interval Start

3 laps for 9K race

rick@svsef.org

Forecast/Conditions: Overnight low 24, temperature at start 30, new and falling snow, cloudy, 50 percent chance of new precip. Overnight snow expected with clearing mid-morning.

Glidewax: Apply Performance Black Hot Wax, scrape and brush, then apply High Performance Yellow Hot Wax, scrape and brush. For HP Liquid Paraffin, apply Performance Red Hot Wax, scrape and brush, then spray on HP Liquid Yellow, let sit for 30 minutes, polish with the Polishing Brush Liquid Paraffin.

Structure: A wet structure covered by one pass with the Yellow Structurite tool after scraping and brushing HP Hot Wax or before spraying HP Liquid will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
