

WAX RECOMMENDATION

Alaska Ski for Women

Kincaid Park, Anchorage, AK

Sunday, February 2

10:30 A.M.

4K, Freestyle or Classic

One lap

www.anchoragenordicski.com/events/alaska-ski-for-women/

Forecast/Conditions: Overnight mostly cloudy with a chance of snow. High zero F to 10F. Low -5F to -15F. The course will be in excellent condition. Any new snow falling the day before the event will be combined with the older transformed snow.

Glidewax: Apply Performance Black Hot Wax, scrape and brush, then apply High Performance Blue Hot Wax, scrape and brush. For HP Liquid Paraffin, apply Performance Blue Hot Wax, scrape and brush, then spray on HP Liquid Blue, let sit in a warm room for at least one hour (overnight is best), polish with the Polishing Brush Liquid Paraffin.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 2 thin layers of Nordic GripWax Blue, corking between layers. Please visit the Toko tent next to the scoreboard for your kick wax.

Structure: A fine universal structure covered by one pass with the Blue Structurite tool after scraping and brushing HP Hot Wax or before spraying HP LP will best suit these conditions.

Created by Patrick McGownd, Toko Tech Team member since 2000.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
