

WAX RECOMMENDATION

Buena Vista Snowjourn

Buena Vista Ski Trail, Bemidji, MN

Saturday, January 11

10 A.M.

12K Classic & Skate Races

<https://bemidjicrosscountryski.org/>

Forecast/Conditions: Very cold Friday night with low around -17F and partly cloudy skies. Race time temperature should be around -10F with mostly sunny skies.

Glidewax: Apply Performance Blue Hot Wax, scrape and brush, then apply High Performance Blue Hot Wax, sprinkle on X-cold Powder, iron in together, scrape and brush.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply several layers of Nordic GripWax Blue, corking between layers. Then apply one final layer of Nordic GripWax X-Cold, cork smooth.

Structure: A cold/fine structure covered by one pass with the Blue Structurite tool after scraping and brushing HP Hot Wax will best suit these conditions.

Racing - Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
