

# WAX RECOMMENDATION

## First Chance Race

Vasaloppet Nordic Center, Mora, MN

Saturday, January 4

11 A.M.

5K and 20K Freestyle races

Self-seeded mass start - 10K course with 5K cutoff

<https://vasaloppet.us>

**Forecast/Conditions:** Overnight low of 14 rising to 19 by start.

There is a 50 percent chance of snow Friday afternoon, expected accumulation of less than one inch. Snow will be a mix of natural and manmade. The course should contain a solid racing platform and generally be in good shape.

**Glidewax:** Apply Performance Blue Hot Wax, scrape and brush, then apply High Performance Red Hot Wax, scrape and brush. For HP Liquid Paraffin, apply Performance Blue Hot Wax, scrape and brush, then spray on HP Liquid Red, let sit in a warm room for at least one hour (overnight is best), polish with the Polishing Brush Liquid Paraffin.

**Structure:** A fine or universal grind covered by one pass with the Blue Structurite tool after scraping and brushing HP Hot Wax or before spraying HP LP will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
