

WAX RECOMMENDATION

Gunstock Freestyle

Gunstock Nordic Trails, Gilford, NH

Sunday, January 5th

10:00 A.M.

8.4-12.6K, Freestyle

Interval start, 2K, 3K, 4.2K laps

<http://www.gunstocknordic.com>

Forecast/Conditions: Overnight low of 29 degrees, rain and snow mix overnight. Temperature at start 30 degrees, mix of manmade and fresh snow, PistenBully groomed. Partly cloudy at race start.

Glidewax: This is a Low Fluoro wax race. Apply Performance Black Hot Wax, scrape and brush, then apply Performance Yellow Hot Wax, scrape and brush. For Base Performance Liquid Paraffin, apply Performance Black Hot Wax, scrape and brush, then spray on BP Liquid Yellow, let stand for at least one hour in a warm room (overnight is best), then polish with the Polishing Brush Liquid Paraffin.

Gripwax: N/A

Structure: A wet grind grind covered by one pass with the Yellow Structurite after scraping and brushing the Hot Wax layer or before spraying on the Base Performance Liquid Paraffin will best suit these conditions.

Created by Stuart Kremzner, Toko Tech Team member since 2005.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
