CAVOC Trails, Rhinelander, WI

Sunday, January 19

10 A.M

5K HS Classic, 3.3K MS, 1K Youth

Classic

Pursuit starts for HS/MS, Mass start for Youth

Race details [here](#)

Forecast/Conditions: Overnight low in the mid-single digits F rising to around 10F to the low teens during the races. Mostly cloudy skies with a chance of snow during the event. Expect the race course to be soft fresh snow over a hard base from recent snowfall.

Glidewax: This race is NF-only! Apply Base Performance Blue Hot Wax, scrape and brush, then apply Base Performance Blue Hot Wax, scrape and brush. For Liquid Paraffin, apply Base Performance Blue Hot Wax, scrape and brush, then spray on Base Performance Liquid Blue, let stand for at least one hour in a warm room (overnight is best), then polish with the Polishing Brush Liquid Paraffin.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply several layers of Nordic GripWax Blue, corking between layers.

Structure: A cold/linear grind covered by one pass with the Blue Structurite tool after scraping and brushing Hot Wax or before spraying Liquid Paraffin will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
